**Mobility/Medical  
goes Additive**  
The VDI Student  
Competition

26.-28.  
April 2024  
in Krailing  
(near Munich),  
Germany

- International and interdisciplinary student competition on 3D printing and digitization
- Key topic of the 2024 competition: Additive manufacturing for advanced robotics: Industry and medical applications
- Be one of the best three teams to be awarded with valuable prizes
- Applying theory and practice by solving complex problems taking technical, economic and ecological factors into account
- Focus on interdisciplinary and cross-sectorial potentials of additive manufacturing in connection with the opportunities and challenges of digitization
